## **Customer Reviews**

General Chuck Horner, with the writing help of Tom Clancy, crafted a wonderful book that tells the story of how to organize, equip, deploy and employ massive yet diverse airpower during the Gulf War in 1990-1991. There are three parts and fifteen chapters in this book. The first third focuses on the past (1960-1989) for Chuck Horner and America's Air Force before Desert Shield. The focus is on the unique climate amongst pilots, especially fighter pilots (Horner's primary skill set) and the entire aviation community. The emphasis Horner places on teamwork is striking, and shows the importance of every airman who contributes to launching and aircraft and its payload down the

runway and into the skies. This part of the book also describes the strategic vision of Air Force leaders in the 1970's as they sought to apply the lessons learned from the Vietnam War, and reemerge from the post war malaise as a coherent fighting organization. Throughout the first part are snapshots of what Horner was trying to create in the chaos that followed the Presidential decision to reinforce Saudi Arabia to deter further Iraqi aggression and finally expel Iraq from Kuwait. Horner, who became Commander in Chief, Central Command (Forward) CINCCENTFWD noted that everywhere he initially went, the staffs' "efforts lacked order and focus...missing essential details such as basing logistics and sortie rates." Horner's essential task was to understand the intent of General Schwarzkopf and the National Command Authority, and to focus the effort of the CENTCOM team to deploy and employ forces in a logical way that would accomplish the national strategic goals.
