The Sumerians Ancient History: The Sumerians In South America - Are The Sumerians From Siberia - Unexplainable Ancient Evidence

Synopsis

The Sumerians settled in Mesopotamia in the stone age from lands in the South, these land now appear to be under the Persian Gulf. The Sumerians was the most extraordinary people, they invented civilization thousands of years before anyone else. They sailed the Oceans as far as America, they invented writing and mathematics, they was expert metallurgists and traded there goods widely. According to Sumerian ancient texts, each Sumerian city had it's own God, but while humans and gods used to live together, the humans were servants to the Gods. The Ruling Sumerian Gods may be the key to the ancestral home of this civilization, they wrote that the Gods was displaced from Karsag in modern day Siberia, the Sumerians also referred to themselves as the north men. This mysterious ancestral home in Siberia appears unlikely at first, but when you look deeper at the evidence available, Siberia was a ideal location for the cradle of civilization. The evidence, although as yet a little scant and open to interpretation, appears to rewrite modernity tens of thousands of years earlier than we assumed.
