## Customer Reviews

I used this series in a high school setting at all 4 levels and loved them. Not every song works for every group of students but enough to do a great job breaking up the monotony of class. The students used to sing them out loud during their sports practices after school. They really stick in your head, and that is the whole point right? I think you do have to be willing to get a little crazy to start singing these songs to high school kids, but if you do it will pay off.

This is it! The way to learn some Spanish without pain and suffering! "Students" of all ages learn the basics without even trying - and the book is helpful for those old enough to read. In other words, this works with any age - 2 1/2 years old all the way up to an eager adult who'll stop at nothing to learn a Foreign Language. There are even some FUN Christmas songs on here that are great for the home or the classroom. Don't forget to look at the second and third releases in Spanish or the other languages Ms. MacArthur has covered.
