Pity The Nation: The Abduction Of Lebanon

Synopsis

Rarely have the horror and tragedy of war been so graphically--and brilliantly--portrayed as in Robert Fisk's epic account of the Lebanon conflict. A Critical scrutiny of a terrible war that has yet to be resolved.

Customer Reviews

As Fisk tells us this book is not an academic history of the wars in Lebanon but rather a personal narrative of a news reporter based on his mountain of notes, a profession in which he is just the best. This leads to some confusion for a reader who has to stay with him as he jumps from place to place, army to army, party to party, and even time to time. It also takes a strong stomach as he forces us to read about the reality of modern "war", the ugly brutality of what modern weapons can do in dismembering pitiful, innocent human beings. Over and over. As he says, "So far as armies and militias go, there are no good guys in Lebanon." While none of them including the PLO come out as heroes the Israelis certainly do not look good, not just in the brutality inflicted on the Lebanese but in their racist arrogance and lies they often told to cover up their actions. For exposing these Fisk was, as usual, subject to attack by the ubiquitous Israeli lobby in the US including the dreary and false charges of "anti-Semitism". He is one of the few foreign reporters who has called attention to the Israeli practice of falling back on "the Holocaust" or accusations of anti-Semitism when caught out in one of their military outrages. This book although a difficult read is particularly educational for Americans who may have opinions about Lebanon formed by the usually inadequate

US media. Fisk is British but lives in Lebanon. He was educated in Ireland and has somewhat Irish outlooks which I think give him a certain sympathy for those without power. I note that when on leave he went to the remote west of Ireland rather than the fleshpots of Europe!
